

## English Language Learners

### Building Reading & Writing Skills

WriteToLearn™ is a fully automated online literacy tool that accurately assesses writing and returns targeted instructional feedback within seconds, providing students with the language skills necessary to succeed in the classroom and the real world.

WriteToLearn offers three activities for improving literacy skills:

- Summary Writing – to develop reading comprehension
- Vocabulary – to expand word knowledge
- Essay Writing – to build writing skills

These components reinforce the required interplay between reading, writing and vocabulary – the bedrock of literacy. Plus, teachers spend less time on grading, enabling them to focus more individual instruction.

### Effective Literacy Instruction

WriteToLearn supports a variety of learning strategies that are beneficial to English language learners:

- Summary writing activities promote close reading of informational texts, aiding students in identifying main and supporting ideas.
- Intelligent hints emphasize important ideas students may have missed while reading.
- Personalized vocabulary exercises teach academic and domain-specific vocabulary to support reading development and content-area learning.
- Leveled essay feedback with examples gives suggestions for improvement.
- Guided essay writing tips help scaffold the writing process.
- Writing activities from across subject areas are designed for English language learners.

### Multilingual Support Tools

- Instructions and feedback available in both Spanish and Simplified Chinese
- Text-to-speech in English and Spanish
- Embedded picture/text dictionary
- Spot word translation
- Highlighting tools to mark main and supporting ideas

Students can receive instructions and feedback in both Spanish and Simplified Chinese.

## Success Using WriteToLearn

- Students using the summary writing component of WriteToLearn advanced a full grade level in their reading comprehension in as little as four weeks of use.
- Using the essay writing component of WriteToLearn, students posted 11% to 90% gains in proficiency on state and district tests.

## Flexible, Easy & Effective for Diverse Classrooms

WriteToLearn's scoring parameters and support tools can be adjusted, allowing teachers to modify passing thresholds and tailor the level of assistance to the needs of every student.

Our Educational Consultants offer remote and on-location professional development for schools using WriteToLearn, helping your English language learners overcome the unique challenges they encounter and improve their English proficiency more rapidly.

With WriteToLearn, reading, writing and vocabulary exercises come together in one online tool that supports the Common Core State Standards for Language Arts and qualifies for state and federal funding, including Title I and Title III. WriteToLearn follows Pearson's SIOP® Model, an instructional framework for helping English learners and struggling students meet grade-level curriculum demands by teaching content and language at the same time—a proven method of closing the achievement gap.

At the beginning of the school year, a lot of students couldn't complete a sentence. The practice they get with WriteToLearn has given them the confidence they need to write well-organized, thought-out summaries that really do reflect what they've read.

Mae Guerra, 4th Grade Teacher  
Valverde Elementary School, Colorado

**Grades:** 4-12
